ABOUT ME:

I aspire to work as a Front-End developer on interesting projects and write in React.

WORK EXPERIENCE:

I have been receiving freelance orders since 2022.
Layout of adaptive websites of varying complexity according to designer layouts, using Javascript, HTML, CSS, Gulp, Figma. Application development using ReactJS, Redux Toolkit. Currently, I am deepening my knowledge by studying TypeScript

PROJECTS:

Online store application   look at
< ReactJS|>< Redux Toolkit|>
